

USER ACCEPTANCE TESTING (UAT) REPORT

Project: Online Complaint Registration System (MERN Stack)

Date:	4 August 2026	Project Version:	1.0.0
Project Name:	Online Complaint Registration System (MERN Stack)	Testing Period:	24 July 2026 to 29 July 2026
Maximum Marks:	4 Marks	Environment:	https://ocr-staging.example.com

PROJECT OVERVIEW

Project Description: An online platform that allows citizens to file complaints, track status, attach evidence, and receive notifications; officers manage assigned complaints through a dedicated dashboard, and admins monitor department-wide performance.

TESTING SCOPE

- Citizen registration, login, and profile management.
- Complaint filing with category, description, and evidence attachment.
- Complaint status tracking, cancellation, and reopening.
- Officer dashboard for managing and updating assigned complaints.
- Status update notifications (SMS/email/push).
- Admin department-wise reporting dashboard.

TESTING ENVIRONMENT & CREDENTIALS

URL / Location: https://ocr-staging.example.com

Credentials:

- Test Citizen: citizen_test@example.com / Test@1234
- Test Officer: officer_test@example.com / Test@1234

TEST CASES

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
--------------	---------------	------------	-----------------	---------------	-----------

TC-001	Citizen registration & login	1. Open the app 2. Enter name, email, phone, password 3. Submit registration form	Account is created and citizen is logged in	Account created; login successful	Pass
TC-002	File a new complaint	1. Go to 'File Complaint' 2. Enter category, description, location 3. Submit	Complaint is logged with a unique tracking ID	Complaint created and ID generated	Pass
TC-003	Attach evidence to complaint	1. Open complaint form 2. Upload photo/video 3. Submit	Evidence file is attached and visible in complaint record	File uploaded and visible	Pass
TC-004	Track complaint status	1. Open 'My Complaints' 2. Select a filed complaint 3. View status timeline	Current status and history are displayed accurately	Status and timeline displayed correctly	Pass
TC-005	Officer updates complaint status	1. Officer logs into dashboard 2. Opens assigned complaint 3. Updates status to 'Resolved'	Status updates instantly and citizen dashboard reflects the change	Status updated for officer, but citizen view took several minutes to refresh	Fail
TC-006	Cancel/reopen complaint	1. Open 'My Complaints' 2. Select a complaint 3. Tap 'Cancel' or 'Reopen'	Complaint status updates accordingly and log entry is created	Cancellation/reopen processed correctly	Pass
TC-007	Admin views department analytics	1. Admin logs into dashboard 2. Opens 'Analytics' 3. Views department-wise report	Report shows accurate complaint volume and resolution stats per department	Report displayed with correct figures	Pass

BUG TRACKING

Bug ID	Bug Description	Steps to Reproduce	Severity	Status	Additional Feedback
BG-001	Complaint status update by officer does not reflect instantly on the citizen's dashboard.	1. Officer updates complaint status 2. Citizen refreshes dashboard 3. Note delay	High	In Progress	Consider WebSocket/real-time sync instead of polling.
BG-002	Status notification (SMS/email) delivery is delayed under high load.	1. File a complaint 2. Wait for status notification 3. Note delivery time	Medium	Open	Check notification queue processing time under load.
BG-003	Duplicate complaint submitted when the 'Submit' button is double-clicked.	1. Fill complaint form 2. Double-click Submit quickly 3. Check complaint list	High	Closed	Fixed with an idempotency key on submission; verified.

SIGN-OFF

Tester Name: _____ Date of Test Completion: _____ Signature: _____

Notes:

- Ensure that all test cases cover both positive and negative scenarios.
- Encourage testers to provide detailed feedback, including any suggestions for improvement.
- Bug tracking should include details such as severity, status, and steps to reproduce.
- Obtain sign-off from both the project manager and product owner before proceeding with deployment.
